

ST AGNES  
LONGSIGHT

## Priorities for the Future

Following the discussions of strengths, weaknesses, fears and hopes, a number of suggestions for our top priorities came up. Among them were

- need to link with and reach out to the local community
- to make our worship attractive and accessible to young people
- to make our worship attractive and accessible to outsiders
- to utilise the building better
- to reach out to lapsed believers
- to reach out to those on the edge of the church
- to include and welcome more families
- to organise more social events - especially those held away from the church building
- to keep hold of all that is good at St Agnes' and build on it

These themes can be summarised (perhaps) in to the top three priorities

### **1. CONNECTIONS**

with outsiders, with the community and with seekers

### **2. A SOCIAL CHURCH**

events which draw members and non-members into the life of the parish

### **3. UTILISING BUILDINGS**

re-organising space, the future of the hall, advertising etc

To implement these priorities:

what resources do we think we will need to tackle this?

what resources do we think we have to tackle this?

what help do we need from the deanery or diocese
